

## GUILHERME DA SILVA NAVARRO

Colombo, PR 83403-518 (Open to Remote) | + 55 (41) 99759-9704 | [guilherme-navarro@outlook.com](mailto:guilherme-navarro@outlook.com)  
[linkedin.com/in/adsguilhermenavarro/](https://www.linkedin.com/in/adsguilhermenavarro/) | [github.com/guinavarro](https://github.com/guinavarro)

## TECHNICAL SKILLS

**Front End** | Javascript, jQuery, Typescript, VueJS

**Back end** | .NET Framework, .NET Core, WebForms, C#, SQL Server, PostgreSQL, Azure Blob Storage, Entity Framework, RabbitMQ

**Developer Tools** | Git, npm, Jenkins, Docker, Azure DevOps, Hangfire, Gitlab, DDD, Clean Code, MVC, MVVM

## EXPERIENCE AND PROJECTS

Fullstack .NET Developer | ICI - Instituto das Cidades Inteligentes

Fullstack .NET Developer in the Software Factory - [GitLab](#) | [JavaScript](#) | [jQuery](#) | [Jenkins](#) | [.NET Core](#) | [SQL Server](#) | [PostgreSQL](#) | [Hangfire](#)

- As a developer in the Software Factory team, I work on developing new products to meet client needs, with most applications focused on public management.
- Development of new projects using the latest .NET versions (.NET 7) with Clean Code and Clean Architecture concepts.
- Development of client-side features in ASP.NET applications using JavaScript and jQuery for server-side communication.
- Collaboration with a testing team to build secure and optimized applications for our clients.

.NET Developer | BNE - Banco Nacional de Empregos

Backend Developer for the Growth Squad - [Azure DevOps](#) | [.NET Core](#) | [.NET Framework](#) | [WebForms](#) | [SQL Server](#) | [PostgreSQL](#) | [Azure Blob Storage](#) | [Rabbit MQ](#)

- I worked for a period as the sole backend developer for the Growth Squad, where we sought innovative solutions to improve user usability in our products.
- Creation and maintenance of features in microservices developed in .NET Core, .NET Framework, and WebForms.

Development Intern | BNE - Banco Nacional de Empregos

Maintenance of a .NET Core 3.1 application - [HTML](#) | [CSS](#) | [Azure DevOps](#) | [.NET](#) | [RabbitMQ](#) | [SQL Server](#) | [Azure Blob Storage](#)

- I participated in the IT School, a professional development program for interns, where I was exposed to various concepts in the field through multidisciplinary activities involving Agile Development, HTML, CSS, .NET, SQL Server, and more.
- I served as the technical lead for a team of four interns, overseeing the Crawler, a product that involves web scraping using .NET Core 3.1 with a DDD architecture and communication with other APIs using RabbitMQ, with data stored in an SQL Server database and Azure Blob Storage.

## EDUCATION

Associate Degree in Systems Analysis and Development (IFPR - Colombo) - Ongoing, started in 2021 with an expected completion in 2024

Technical Degree in Administration (IFPR - Colombo) - Completed in 2021
